The costs for any Work shown or required in the Contract Documents, but not specifically identified as a line item are to be included in the related line items and no additional compensation shall be due to Contractor for the performance of the Work.

All blank spaces appearing above must be filled in. Failure to fill in any blank spaces may render the bid non-responsive. In case of discrepancy between the Unit Price and Item Cost set forth for a unit basis item, the Unit Price shall prevail and be utilized as the basis for determining the lowest responsive, responsible Bidder. However, if the amount set forth as a Unit Price is ambiguous, unintelligible or uncertain for any cause, or is omitted, or is the same amount as the entry in the Item Cost column, then the amount set forth in the Item Cost column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the Unit Price.

For purposes of evaluating Bids, the City will correct any apparent errors in the extension of unit prices and any apparent errors in the addition of lump sum and extended prices.

The estimated quantities for Unit Price items are for purposes of comparing Bids only and the City makes no representation that the actual quantities of work performed will not vary from the estimates. Final payment shall be determined by the Engineer from measured quantities of work performed based upon the Unit Price.

The undersigned agrees that this Bid Schedule constitutes a firm offer to the City which cannot be withdrawn for the number of calendar days indicated in the Notice Inviting Bids from and after the Bid opening, or until a Contract for the Work is fully executed by the City and a third party, whichever is earlier.

If the Contract Documents specify Alternate Bid items, the City can choose to include any, all, or none of the Alternate Bid items in the Work. If the City selects any of the Alternate Bid items, the corresponding Alternate Bid prices shall be added to or deducted from Base Bid Price for the Work. The City can award/select Alternate Bid items at any time(s).

To Whom It May Concern,

Next Century Rebar does not have any CARB off-road use regulated vehicles. Our fleet vehicles consist of California street legal, smogged, DMV registered work trucks.

No problem Ken. Regarding Off Road Certs, we do not have any off road vehicles that will be used on this project.

If you need anything else just let me know.

Good Morning Ken,

I just got off the phone with the California Air Resource Board. I was trying to figure out how to get the Certificate. They advised me that our company does not need one because we do not operate any off-road diesel vehicles. He said it is only for companies that operate vehicles over 25 horsepower, that have off-road engines, and cannot be driven on streets or highways. If you have any questions please reach out to me.

Sincerely,

Sadie Mendenhall

Thank you Nathan, the agency requires you as a sub for this project to provide your Off Road Cert as shown in the attachment above. Please get it to me at your earliest convenience. I will take your quote and break it down into the bid items that pertain to the waterline. Thanks again.
