

EXHIBIT A

19.04.030(2)(P) (Second Dwelling Unit Housing Design Standards Standards) shall be amended and restated to read in its entirety follows:

P. Accessory Dwelling Units

- 1. Purpose.** The purpose of this section is to allow and regulate accessory dwelling units (ADUs) and junior accessory dwelling units (JADUs) in compliance with California Government Code sections 65852.2 and 65852.22.
- 2. Effect of Conforming.** An ADU or JADU that conforms to the standards in this section will not be:
 - a. Deemed to be inconsistent with the city's general plan and zoning designation for the lot on which the ADU or JADU is located.
 - b. Deemed to exceed the allowable density for the lot on which the ADU or JADU is located.
 - c. Considered in the application of any local ordinance, policy, or program to limit residential growth.
 - d. Required to correct a nonconforming zoning condition, as defined in subsection 3.g below. This does not prevent the City from enforcing compliance with applicable building standards in accordance with Health and Safety Code section 17980.12.
- 3. Definitions.** As used in this section, terms are defined as follows:
 - a. "Accessory dwelling unit" or "ADU" means an attached or a detached residential dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with a proposed or existing primary residence. An accessory dwelling unit also includes the following:
 - i. An efficiency unit, as defined by section 17958.1 of the California Health and Safety Code; and
 - ii. A manufactured home, as defined by section 18007 of the California Health and Safety Code.
 - b. "Accessory structure" means a structure that is accessory and incidental to a dwelling located on the same lot.
 - c. "Complete independent living facilities" means permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as the single-family or multifamily dwelling is or will be situated.
 - d. "Efficiency kitchen" means a kitchen that includes each of the following:
 - i. A cooking facility with appliances.
 - ii. A food preparation counter and storage cabinets that are of a reasonable size in relation to the size of the JADU.
 - e. "Junior accessory dwelling unit" or "JADU" means a residential unit that satisfies all of the following:
 - i. It is no more than 500 square feet in size.

EXHIBIT A

- ii. It is contained entirely within an existing or proposed single-family structure. An enclosed use within the residence, such as an attached garage, is considered to be a part of and contained within the single-family structure.
 - iii. It includes its own separate sanitation facilities or shares sanitation facilities with the existing or proposed single-family structure.
 - iv. If the unit does not include its own separate bathroom, then it contains an interior entrance to the main living area of the existing or proposed single-family structure in addition to an exterior entrance that is separate from the main entrance to the primary dwelling.
- f. “Living area” means the interior habitable area of a dwelling unit, including basements and attics, but does not include a garage or any accessory structure.
 - g. “Nonconforming zoning condition” means a physical improvement on a property that does not conform with current zoning standards.
 - h. “Passageway” means a pathway that is unobstructed clear to the sky and extends from a street to one entrance of the ADU or JADU.
 - i. “Proposed dwelling” means a dwelling that is the subject of a permit application and that meets the requirements for permitting.
 - j. “Public transit” means a location, including, but not limited to, a bus stop or train station, where the public may access buses, trains, subways, and other forms of transportation that charge set fares, run on fixed routes, and are available to the public.
 - k. “Tandem parking” means that two or more automobiles are parked on a driveway or in any other location on a lot, lined up behind one another.
4. **Approvals.** The following approvals apply to ADUs and JADUs under this section:
- a. **Statutory Criteria.** If an ADU or JADU complies with each of the general requirements in subsection (e) below, it is allowed with only a building permit in the following scenarios:
 - i. **Converted on Single-family Lot:** One ADU as described in this subsection 0 and one JADU on a lot with a proposed or existing single-family dwelling on it, where the ADU or JADU:
 - a) Is either: within the space of a proposed single-family dwelling; within the existing space of an existing single-family dwelling; or (in the case of an ADU only) within the existing space of an accessory structure, plus up to 150 additional square feet if the expansion is limited to accommodating ingress and egress; and
 - b) Has exterior access that is independent of that for the single-family dwelling; and
 - c) Has side and rear setbacks sufficient for fire and safety, as dictated by applicable building and fire codes.
 - d) The JADU complies with the requirements of Government Code Section 65852.22.
 - ii. **Limited Detached on Single-family Lot:** One detached, new-construction ADU on a lot with a proposed or existing single-family dwelling (in addition to any JADU that

EXHIBIT A

- might otherwise be established on the lot under subsection 0 above), if the detached ADU satisfies each of the following limitations:
- a) The side- and rear-yard setbacks are at least four-feet.
 - b) The total floor area is 800 square feet or smaller.
 - c) **The peak height above grade does not exceed the applicable height limit in subsection 5.c below.**
- iii. **Converted on Multifamily Lot:** One or more ADUs within portions of existing multifamily dwelling structures that are not used as livable space, including but not limited to storage rooms, boiler rooms, passageways, attics, basements, or garages, if each converted ADU complies with state building standards for dwellings. Under this subsection 1.a.i.c), at least one converted ADU is allowed within an existing multifamily dwelling, up to a quantity equal to 25 percent of the existing multifamily dwelling units.
- iv. **Limited Detached on Multifamily Lot: No more than two detached ADUs on a lot that has an existing or proposed multifamily dwelling if each detached ADU satisfies both of the following limitations:**
- a) **The side- and rear-yard setbacks are at least four feet. If the existing multifamily dwelling has a rear or side yard setback of less than four feet, the city will not require any modification to the multifamily dwelling as a condition of approving the ADU.**
 - b) **The peak height above grade does not exceed the applicable height limit provided in subsection 5.c below.**
- b. **Additional Criteria.**
- i. An ADU that does not qualify under the criteria set forth in subsection 0 above may be created with a building permit if it complies with the standards set forth in subsections 5 and 6 below.
- c. **Process and Timing.**
- i. An ADU application is considered and approved ministerially, without discretionary review or a hearing.
 - ii. **The City must approve or deny an application to create an ADU or JADU within 60 days from the date that the City receives a completed application. If the City does not approve or deny the completed application within 60 days, the application is deemed approved unless either:**
 - a) The applicant requests a delay, in which case the 60-day time period is tolled for the period of the requested delay, or
 - b) **When an application to create an ADU or JADU is submitted with a permit application to create a new single-family or multifamily dwelling on the lot, the City may delay acting on the permit application for the ADU or JADU until the City acts on the permit application to create the new single-family or multifamily dwelling, but the application to create the ADU or JADU will still be considered ministerially without discretionary review or a hearing.**
 - iii. **If the city denies an application to create an ADU or JADU, the city must provide the applicant with comments that include, among other things, a list of all the**

EXHIBIT A

- defective or deficient items and a description of how the application may be remedied by the applicant. Notice of the denial and corresponding comments must be provided to the applicant within the 60-day time period established by subsection Error! Reference source not found. above.
- iv. A demolition permit for a detached garage that is to be replaced with an ADU is reviewed with the application for the ADU and issued at the same time.
5. **General ADU and JADU Requirements.** The following requirements apply to all ADUs and JADUs that are approved under subsections 0 or 0 above:
- a. **Zoning.**
- i. An ADU or JADU subject only to a building permit under subsection 0 above may be created on a lot in a residential or mixed-use zone.
- ii. An ADU or JADU subject to an ADU permit under subsection 0 above may be created on a lot that is zoned to allow single-family dwelling residential use or multifamily dwelling residential use.
- b. **Access.** Each ADU and JADU must have direct exterior access that is separate from that of the primary dwelling.
- c. **Height.**
- i. Except as otherwise provided by subsections 0 and 0 below, a detached ADU created on a lot with an existing or proposed single family or multifamily dwelling unit may not exceed 16 feet in height.
- ii. A detached ADU may be up to 18 feet in height if it is created on a lot with an existing or proposed single family or multifamily dwelling unit that is located within one-half mile walking distance of a major transit stop or a high quality transit corridor, as those terms are defined in Section 21155 of the Public Resources Code, and the ADU may be up to two additional feet in height (for a maximum of 20 feet) if necessary to accommodate a roof pitch on the ADU that is aligned with the roof pitch of the primary dwelling unit.
- iii. A detached ADU created on a lot with an existing or proposed multifamily dwelling that has more than one story above grade may not exceed 18 feet in height.
- iv. An ADU that is attached to the primary dwelling may not exceed 25 feet in height or the height limitation imposed by the underlying zone that applies to the primary dwelling, whichever is lower. Notwithstanding the foregoing, ADUs subject to this subsection 0 may not exceed two stories.
- v. For purposes of this subsection 5.c, height is measured above existing legal grade to the peak of the structure.
- d. **Fire Sprinklers.**
- i. Fire sprinklers are required in an ADU if sprinklers are required in the primary residence.
- ii. The construction of an ADU does not trigger a requirement for fire sprinklers to be installed in the existing primary dwelling.

EXHIBIT A

- e. **Rental Term.** No ADU or JADU may be rented for a term that is shorter than 30 days. This prohibition applies regardless of when the ADU or JADU was created.
- f. **No Separate Conveyance.** An ADU or JADU may be rented, but, except as otherwise provided in Government Code Section 65852.26, no ADU or JADU may be sold or otherwise conveyed separately from the lot and the primary dwelling (in the case of a single-family lot) or from the lot and all of the dwellings (in the case of a multifamily lot).
- g. **Septic System.** If the ADU or JADU will connect to an onsite wastewater-treatment system, the owner must include with the application a percolation test completed within the last five years or, if the percolation test has been recertified, within the last 10 years.
- h. **Owner Occupancy.** As required by state law, all JADUs are subject to an owner-occupancy requirement. A natural person with legal or equitable title to the property must reside on the property, in either the primary dwelling or JADU, as the person's legal domicile and permanent residence. However, the owner-occupancy requirement in this subsection Error! Reference source not found. does not apply if the property is entirely owned by another governmental agency, land trust, or housing organization.
- i. **Deed Restriction.** Prior to issuance of a building permit for an ADU or JADU, a deed restriction must be recorded against the title of the property in the County Recorder's office and a copy filed with the Director. The deed restriction must run with the land and bind all future owners. The form of the deed restriction will be provided by the City and must provide that:
 - i. Except as otherwise provided in Government Code Section 65852.26, the ADU or JADU may not be sold separately from the primary dwelling.
 - ii. The ADU or JADU is restricted to the approved size and to other attributes allowed by this section.
 - iii. The deed restriction runs with the land and may be enforced against future property owners.
 - iv. The deed restriction may be removed if the owner eliminates the ADU or JADU, as evidenced by, for example, removal of the kitchen facilities. To remove the deed restriction, an owner may make a written request of the Director, providing evidence that the ADU or JADU has in fact been eliminated. The Director may then determine whether the evidence supports the claim that the ADU or JADU has been eliminated. Appeal may be taken from the Director's determination consistent with other provisions of this Code. If the ADU or JADU is not entirely physically removed, but is only eliminated by virtue of having a necessary component of an ADU or JADU removed, the remaining structure and improvements must otherwise comply with applicable provisions of this Code.
 - v. The deed restriction is enforceable by the Director or his or her designee for the benefit of the City. Failure of the property owner to comply with the deed restriction may result in legal action against the property owner, and the City is authorized to obtain any remedy available to it at law or equity, including, but not limited to, obtaining an injunction enjoining the use of the ADU or JADU in violation of the recorded restrictions or abatement of the illegal unit.

EXHIBIT A

6. Specific ADU Requirements. The following requirements apply only to ADUs that are approved under subsection 0 above.

a. Maximum Size.

- i. The maximum size of a detached or attached ADU subject to this subsection 6 is 850 square feet for a studio or one-bedroom unit and 1,000 square feet for a unit with two or more bedrooms.
- ii. An attached ADU that is created on a lot with an existing primary dwelling is further limited to 50 percent of the floor area of the existing primary dwelling.
- iii. Application of other development standards in this subsection 6, such as setbacks or lot coverage, might further limit the size of the ADU, but no application of the percent-based size limit in subsection 0 above or of a lot coverage limit or open-space requirement may require the ADU to be less than 800 square feet.

b. Setbacks.

- i. An ADU that is subject to this subsection 6 must conform to a 25-foot front-yard setback, subject to subsection 0 above.
- ii. An ADU that is subject to this subsection 6 must conform to 4-foot side- and rear-yard setbacks.
- iii. No setback is required for an ADU that is subject to this subsection 6 if the ADU is constructed in the same location and to the same dimensions as an existing structure.

c. Lot Coverage. No ADU subject to this subsection 6 may cause the total lot coverage of the lot to exceed 50 percent, subject to subsection 0 above.

d. Passageway. No passageway, as defined by subsection 3.h above, is required for an ADU.

e. No Replacement Parking. When a garage, carport, or covered parking structure is demolished in conjunction with the construction of an ADU or converted to an ADU, those off-street parking spaces are not required to be replaced.

f. Architectural Requirements.

- i. The materials and colors of the exterior walls, roof, and windows and doors must match the appearance and architectural design of those of the primary dwelling.
- ii. The roof slope must match that of the dominant roof slope of the primary dwelling. The dominant roof slope is the slope shared by the largest portion of the roof.
- iii. The exterior lighting must be limited to down-lights or as otherwise required by the building or fire code.
- iv. The ADU must have an independent exterior entrance, apart from that of the primary dwelling. The ADU entrance must be located on the side or rear building façade, not facing a public-right-of-way.

7. Fees. The following requirements apply to all ADUs and JADUs that are approved under subsections 0 or 0 above.

a. Impact Fees.

- i. No impact fee is required for an ADU or JADU that is less than 750 square feet in size. For purposes of this subsection 7.a, “impact fee” means a “fee” under the Mitigation Fee Act (Gov. Code § 66000(b)) and a fee under the Quimby Act (Gov. Code § 66477).

EXHIBIT A

“Impact fee” here does not include any connection fee or capacity charge for water or sewer service.

- ii. Any impact fee that is required for an ADU that is 750 square feet or larger in size must be charged proportionately in relation to the square footage of the primary dwelling unit. (E.g., the floor area of the ADU, divided by the floor area of the primary dwelling, times the typical fee amount charged for a new dwelling.)

b. Utility Fees.

- i. If an ADU or JADU is constructed with a new single-family home, a separate utility connection directly between the ADU or JADU and the utility and payment of the normal connection fee and capacity charge for a new dwelling are required.
- ii. Except as described in subsection 0, converted ADUs and JADUs on a single-family lot that are created under subsection 0 above are not required to have a new or separate utility connection directly between the ADU or JADU and the utility. Nor is a connection fee or capacity charge required.
- iii. Except as described in subsection 0, all ADUs and JADUs that are not covered by subsection 0 require a new, separate utility connection directly between the ADU or JADU and the utility.
 - a) The connection is subject to a connection fee or capacity charge that is proportionate to the burden created by the ADU or JADU, based on either the floor area or the number of drainage-fixture units (DFU) values, as defined by the Uniform Plumbing Code, upon the water or sewer system.
 - b) The portion of the fee or charge that is charged by the City may not exceed the reasonable cost of providing this service.
